Item 3.02. Unregistered Sales of Equity Securities.

Financing Transaction

On September 2, 2016, MRI Interventions, Inc. (the “Company”) completed its previously announced private placement of common stock and warrants (the “Financing Transaction”), pursuant to the terms of a Securities Purchase Agreement dated August 31, 2016 (the “Purchase Agreement”), by and among the Company and certain investors (collectively, the “Investors”). At the closing, in accordance with the terms and conditions of the Purchase Agreement, the Company sold to the Investors an aggregate of 851,000 units (the “Units”), with each unit consisting of: (i) one share of the Company’s common stock; and (ii) a warrant to purchase 0.90 shares of the Company’s common stock (each, a “Warrant” and collectively, the “Warrants”).

In connection with the sale of the Units, the Company received aggregate gross proceeds of approximately \$4.25 million, before deducting placement agents’ fees of \$196,494 and offering expenses. In addition, the placement agents for the Financing Transaction received, in the aggregate, warrants (“Placement Agent Warrants”) to purchase up to approximately 29,680 shares of common stock.

In the Financing Transaction, the Units were issued and sold to “accredited investors” (as defined by Rule 501 under the Securities Act of 1933, as amended (the “Securities Act”)) in reliance upon exemptions from registration under the Securities Act afforded by Section 4(a)(2) of the Securities Act and Rule 506 of Regulation D promulgated thereunder and corresponding provisions of state securities laws as well as Regulation S of the Securities Act. The Purchase Agreement contains representations to support the Company’s reasonable belief that the Investors had access to information concerning the Company’s operations and financial condition, that the Investors did not acquire the securities with a view to the distribution thereof in the absence of an effective registration statement or an applicable exemption from registration, and that the Investors are accredited investors. The Company relied upon the representations made by the Investors pursuant to the Purchase Agreement in determining that such exemptions were available. The Company intends to file a Form D in accordance with the requirements of Regulation D under the Securities Act in connection with the sale of the Units.

The following is a brief summary of the Purchase Agreement, the Registration Rights Agreement and the Warrants, which are qualified in their entirety by reference to the full text of such documents.

Purchase Agreement

The Purchase Agreement contains representations and warranties by the Company and the Investors and covenants of the Company and the Investors (including indemnification from the Company in the event of breaches of its representations and warranties), which the Company believes are customary for transactions of this type.

Registration Rights Agreement

In connection with the Financing Transaction, the Company also entered into a Registration Rights Agreement dated as of September 2, 2016 with each of the Investors, pursuant to which the Company is required to prepare and file a registration statement (the “Registration Statement”) with the Securities and Exchange Commission (the “SEC”) under the Securities Act covering the resale of the shares of common stock to be issued to the Investors under the Purchase Agreement, as well as the shares of common stock underlying the Warrants and the Placement Agent Warrants. The Company will be required to file such Registration Statement on or before October 2, 2016 (the “Filing Deadline”). The Company will be required to use its best efforts to have the Registration Statement declared effective as soon as practicable. Pursuant to the Registration Rights Agreement, if: (i) the Registration Statement is not filed with the SEC on or prior to the Filing Deadline; (ii) the Registration Statement is not declared effective by the SEC on or prior to November 16, 2016 (or December 31, 2016 if the SEC determines to review the Registration Statement); or (iii) the Company fails to continuously maintain the effectiveness of the Registration Statement (with certain permitted exceptions), the Company will incur certain liquidated damages to the Investors. The Registration Rights Agreement also contains mutual indemnifications by the Company and each Investor, which the Company believes are customary for transactions of this type.

Warrants

The Warrants are exercisable, in full or in part, at any time prior to September 2, 2021, at an exercise price of \$5.50 per share. The Warrants provide for certain adjustments that may be made to the exercise price and the number of shares issuable upon exercise due to future corporate events. In the case of certain fundamental transactions affecting the Company, the holders of the Warrants, upon exercise of such warrants after such fundamental transaction, have the right to receive, in lieu of shares of the Company's common stock, the same amount and kind of securities, cash or property that such holder would have been entitled to receive upon the occurrence of the fundamental transaction, had the Warrants been exercised immediately prior to such fundamental transaction. The Warrants contain a "cashless exercise" feature that allows the holders to exercise the warrants without a cash payment to the Company upon the terms set forth in the Warrants.

The Placement Agent Warrants have the same terms and conditions as the Warrants.

The foregoing description of the terms and conditions of the Purchase Agreement, the Registration Rights Agreement and the Warrants is only a summary and is qualified in its entirety by the full text of the Purchase Agreement, the Registration Rights Agreement and the Warrants, the forms of which were previously filed as Exhibits 10.1, 10.2 and 4.1, respectively, to the Company's Current Report on Form 8-K filed with the SEC on September 1, 2016.

Related Debt Conversion

In addition to and simultaneously with the sale of the Units, on September 2, 2016, the Company sold an aggregate of 350,000 Units to two holders ("Holders") of (i) the Company's 12% Second-Priority Secured Non-Convertible Promissory Notes Due 2019 ("2019 Notes"), and (ii) two common stock warrants issued by the Company in connection with the 2019 Notes ("2019 Warrants"), in accordance with the terms and conditions of those certain Second Omnibus Amendments dated August 31, 2016, by and between the Company and each of the Holders, which were previously disclosed on the Company's Current Report on Form 8-K filed with the SEC on September 1, 2016 (collectively, the "Second Omnibus Amendments").

Pursuant to the Second Omnibus Amendments, as a result of the closing of the Financing Transaction: (i) \$1.75 million of the aggregate principal balance of the Holders' 2019 Notes automatically converted into 350,000 Units on the same terms and conditions as in the Financing Transaction; and (ii) the exercise price for 13,125 shares of common stock that may be purchased upon exercise of the Holders' 2019 Warrants was reduced to \$5.50, which is equal to the exercise price of the Warrant in the Financing Transaction.

The Company issued Units to the Holders pursuant to the Second Omnibus Amendments and automatic conversion of the Company's debt provided for therein in reliance upon exemption from registration under Section 3(a)(9) of the Securities Act. The Company intends to include the sale of shares of the Company's common stock to the Holders in the Form D it intends to file in connection with the sale of the Units in the Financing Transaction.

The foregoing descriptions of the Second Omnibus Amendments are only summaries and are qualified in their entirety by the full text of the Second Omnibus Amendments, the form of which is filed as Exhibit 10.3 to the Company's Current Report on Form 8-K filed with the SEC on September 1, 2016.

Item 3.03. Material Modification to Rights of Security Holders.
